Impact of Lockdown in Malaysia on Roland's Financial Results

In Malaysia, where the Roland Group's mainstay factory is located, the government has announced the extension of the ongoing nationwide lockdown to control the COVID-19 pandemic.

Accordingly, Roland Corporation (the "Company") hereby announces the latest operational status of its Group company Roland Manufacturing Malaysia Sdn. Bhd. (the "Malaysian Factory") and the expected impact of the extended lockdown on the consolidated financial result forecasts for the fiscal year ending December 31, 2021. The details are as follows.

1. Operational status of the Malaysian Factory

- From May 25, 2021: Limited the number of employees coming into the factory to 60% following the implementation of stricter Movement Control Order imposed by the government.
- From June 1, 2021: Continued to limit the number of employees coming into the factory to 60% following the implementation of the nationwide lockdown in Malaysia (from June 1 to 14, 2021).
- From June 11, 2021: Voluntarily suspended operations temporarily in light of the spread of COVID-19 in Malaysia (from June 11 to 14, 2021).
Began COVID-19 antigen testing for all employees.
- From June 15, 2021 onwards: Resumed the operations while maintaining the number of employees coming into the factory at 60% following the extension of the nationwide lockdown in Malaysia (until June 28, 2021).

2. Impact on the financial results

At this point, we expect the impact of the extended lockdown on the consolidated financial result forecast for the fiscal year ending December 31, 2021 disclosed on May 7, 2021 to be immaterial. If any material impact is identified in the future, the Company will make an immediate announcement.

We will strive for ensuring stable production while taking thorough measures to prevent the spread of infections by continuing to follow instructions given by the Malaysian authorities.
